

Dental Office Construction

since 1976

CHAMBLISS & RABIL
CONTRACTORS, INC.

Southpoint Pediatric Dentistry
Amy Davidian, DDS
Durham, NC

How to make a dentist smile...

Excellent planning. Attention to detail. Superior construction.

Successful construction of a new dental office begins long before the groundbreaking, and the Chambliss & Rabil team is with you every step of the way. We have been building dental offices since 1976 and understand the challenges and opportunities associated with each project.

When you select Chambliss & Rabil, you can rest assured that we are handling the details so you won't have to. We have close relationships with excellent architects, engineers, and interior designers who specialize in dental practice projects. From site selection to final inspection, Chambliss & Rabil will coordinate and manage every aspect of your project so you can focus on what matters most...your practice and your patients.

We can assist you in assembling a TEAM of qualified providers in any or all of the following services:

- Site Selection & Acquisition
- Land Planning & Civil Design
- Permitting, Environmental & Legal
- Architectural & Engineering
- Interior Design & Space Planning
- Building & Construction
- Financing & Accounting
- Equipment, Furniture & Fixtures
- Insurance
- IT & Networking
- Marketing & Branding

Design/Build or Renovate

The range of services that we provide our dental clients is limitless. From a minor repair to an update of decor to full renovation, we handle it all. **New construction? No problem.** Our knowledge of dental office operations results in an understanding of dental office design, function, and construction. To put it simply, "we speak the language". We know who to engage to form a team that will get it right. Many of our clients prefer that we provide full DESIGN/BUILD services. That way, we are involved from day one. When the equipment provider, architect, engineers, designer, and contractor are all in place from start to finish, the result is a better product, a more functional office, a shorter construction schedule, and a lower cost. That results in a happy dentist. Mission accomplished.

About Us

Chambliss & Rabil Contractors, Inc., was founded in 1975 and operates offices in Rocky Mount, Wilmington, and Raleigh, NC. The company employs an average work force of 50, including three division managers and 10 project managers.

The construction division specializes in the construction and renovation of medical facilities and has completed over 200 medical related projects, including over 100 dental office projects and more than 25 facilities for the eye care industry. The company has an impressive portfolio of work related to projects for veterinarians, surgeons, family practice physicians, hospitals, and medical clinics. Chambliss & Rabil Contractors holds the prestigious ASHE Healthcare Construction Certificate and is well-versed in Infection Control Risk Assessment (ICRA) standards.

The company carries an unlimited general contracting license classification in North Carolina and serves an area that includes all of central and eastern North Carolina.
